PROFESSIONAL EXPERIENCE:

- 9/2012 to Present **W.L. Gore & Associates, Web Developer**
Following my internship, I was offered a position working for the Gore web team. I am currently working with associates in Germany to develop a company-wide systems outage notification Internet application.
- 6/2012 to 8/2012 **W.L. Gore & Associates, Web Team Summer Intern**
I was one of two students from the UD chosen for a summer internship at W.L. Gore & Associates. I worked as part of the Gore web team, taking the lead on multiple projects, including skinning a 3rd party web platform, creating custom web forms for field demonstrations, and coding various web apps in ColdFusion or Java. This internship both incorporated and grew my skills of teamwork, communication, and networking.
